

UKU control panel

reddot winner 2021

UKU control system is a modern way to heat a sauna. The sauna can be controlled from a stylish sauna controller on the wall or, in the case of the WiFi or GSM model, even from a smartphone. It is possible to connect sauna lighting/ventilation and steamer to UKU and control them from the remote control. UKU ensures you a comfortable and safe sauna experience.

- ◆ timer
- ◆ child safety lock
- ◆ door sensor
- ◆ for heaters up to 18 kW
- ◆ controllers of different colours and styles
- ◆ the control system can be used with electric heaters from different manufacturers

Control system options:

WiFi

GSM

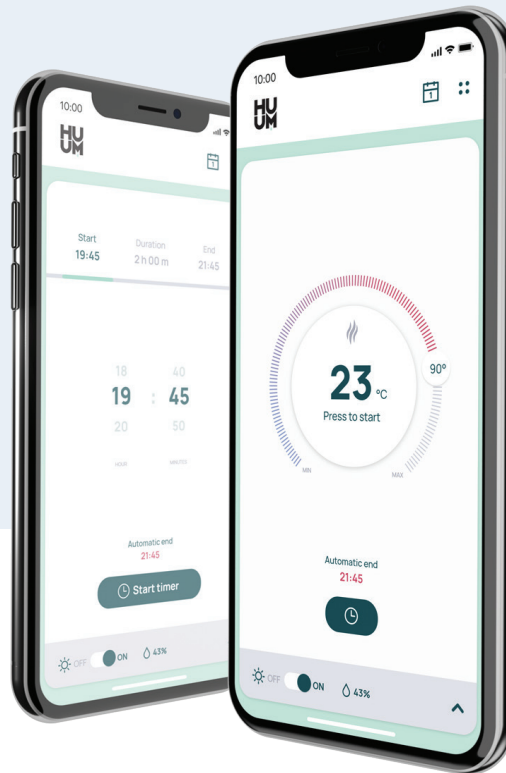

Local

UKU WiFi - Manual and mobile application use. Needs WiFi network

UKU GSM - Manual and mobile application use. Needs 2G network

UKU Local - Manual use only

HUUM mobile app

You can conveniently heat the sauna with **HUUM mobile application**, regardless of your location. Whether you're finishing a long day at work or planning to go for a run - a couple of clicks on your mobile phone is all it takes to have a hot sauna waiting for you when you get home. The mobile application allows you to set the start and end time of heating, select the target temperature and view the current temperature of the sauna. HUUM mobile application works with **UKU WiFi** and **UKU GSM** control systems.

- ◆ eight different languages
- ◆ unlimited number of users
- ◆ notification when the end temperature is reached
- ◆ lights/ventilation or steamer control
- ◆ calendar for booking sauna in advance
- ◆ statistics about sauna use

INCLUDED:

- electric sauna heater

REQUIRED:

- control unit
- stones (3-5 cm)
- heat-resistant power cable

CLIFF electric heater imitates the northern coastal cliffs. CLIFF with its powerful stone surface brings variety to the interior of the steam room and a sense of timeless nature. A large amount of heating stones ensures a mild but abundant steam. The air tunnel built into the heater guarantees efficient air flow, accelerates heating and extends the life of the heating elements. The small safety distances of the heater make it also suitable for more compact home saunas.

CLIFF Mini electric heater is an even slimmer, wall-mounted Mini 4 model of the CLIFF heater, which is suitable for small steam rooms. Both heaters are compatible with the UKU sauna control system.
