

UKU control panel

reddot winner 2021

UKU control system is a modern way to heat a sauna. The sauna can be controlled from a stylish sauna controller on the wall or, in the case of the WiFi or GSM model, even from a smartphone. It is possible to connect sauna lighting/ventilation and steamer to UKU and control them from the remote control. UKU ensures you a comfortable and safe sauna experience.

- ◆ timer
- ◆ child safety lock
- ◆ door sensor
- ◆ for heaters up to 18 kW
- ◆ controllers of different colours and styles
- ◆ the control system can be used with electric heaters from different manufacturers

Control system options:

WiFi

GSM

Local

UKU WiFi - Manual and mobile application use. Needs WiFi network

UKU GSM - Manual and mobile application use. Needs 2G network

UKU Local - Manual use only

HUUM mobile app

You can conveniently heat the sauna with **HUUM mobile application**, regardless of your location. Whether you're finishing a long day at work or planning to go for a run - a couple of clicks on your mobile phone is all it takes to have a hot sauna waiting for you when you get home. The mobile application allows you to set the start and end time of heating, select the target temperature and view the current temperature of the sauna. HUUM mobile application works with **UKU WiFi** and **UKU GSM** control systems.

- ◆ eight different languages
- ◆ unlimited number of users
- ◆ notification when the end temperature is reached
- ◆ lights/ventilation or steamer control
- ◆ calendar for booking sauna in advance
- ◆ statistics about sauna use

DROP electric heater is inspired by the purest element of nature - a drop of water. DROP's round design softens and enlivens the interior of the sauna, adding elegance to the steam room. Apart from good looks, DROP has other outstanding features. The compact wall-mounted heater holds up to 55 kg of stones, outperforming most wood-fired heaters and ensuring long-lasting steam.

DROP is compatible with the WiFi-capable control system UKU, so that you can conveniently heat the sauna in the phone application, while you are still on the hiking trail or at the end of a long day at work.
